PRELIMINARY AMENDMENT

Prior to examination of the instant application, please amend the above-referenced application as follows:

IN THE CLAIMS:

Please replace Claims 1, 9, 11-13, 16, 21-24 and 29 with the following:

Sub D1 1. (Twice Amended) A parts ordering system having a first domain, a second domain and a third domain connected in a tree structure, each domain being a unit of processing in a computer system corresponding to a working unit on a production line, wherein said second domain includes:

C1 expansion means for expanding, into each component part, a part corresponding to an order that has been received from the first domain; and

communication means for communicating, to the third domain corresponding to
